

NECHAMA HENDERSON

GRAPHIC DESIGN/SPECIALIST | MARKETING

PROFESSIONAL BIO

Nechama Henderson is the Graphic Design and Marketing Specialist at Intelica CRE™. In this role, Nechama utilizes her creative skills to represent the vision of the company through visual communication. Nechama is a curious, smart and innovative Designer who reimagines and creates designs with functionality and creativity. She creates significant and effective visual communication using typography, photographs, illustration and graphic elements to construct designs that is a silent ambassador for the company. She creates visual concepts, using computer software or by hand, to communicate ideas that inspire, inform and captivate our clients and support the brokerage team and Bamboo team. She develops the overall layout and production design for applications such as flyers, brochures, social media posts and other marketing collateral. She is passionate about all things design and with each design project dives right into the creative process. Nechama is up for any challenge and she is always ready to grow in her field and gain new skills.

Prior to joining Intelica, Nechama was the Marketing Coordinator at Aegion, a multi-national pipeline and infrastructure company. In this role, she was responsible for a broad range of marketing activities, including basic marketing administrative support, market research, graphic design and website maintenance.

When Nechama is not working she can be found working out at the gym, cooking/baking, playing guitar, pursuing other creative side hustles, and laughing and spending quality time with her friends and family.
